

Internships Available for BISC Students for Spring 2025

General description of the internship course, BISC 4986:

The internships available are unpaid internships for which the students may receive academic credit. Students will receive up to 3 credits in the spring by signing up for BISC 4986. BISC 4986 would count as a BISC elective course. Applicants will go through a selection process. The selection will be based on seniority and how this internship may benefit the student's career after graduation. Students will be asked to meet with the internship director two times per semester and complete a supervisor evaluation form at the end of the semester. Each student is required to do an oral presentation and write a reflection paper. Some of the internships may apply toward the MCC ESSV2 requirement.

All internships are posted on our website: <https://www.marquette.edu/biomedicalsciences/internshipprogram.php>. Students should check periodically since the site will be updated as we have more internships update.

For any questions, students can email Dr. Makky at Khadijah.makky@marquette.edu

APPLICATION:

To apply for any of the internships listed on the following pages, please complete the form and include necessary materials (brief résumé, personal statement/cover letter, etc.):
