SSC: ECON 4047 Development Economics Prereq: ECON 1103 & ECON 1104 ECON Major Elective or Upper Division Business Elective			

Students can dual apply ANY Discovery Tier Theme courses when possible to business core, major requirements, upper division business electives, ~~business major/minor requirements~~ BUT NOT required non-business electives. Students can dual apply up to two business courses to Discovery Tier Theme requirements AND business core, major requirements or upper division business electives to reduce overall credits. Reducing credit requirements does not happen automatically, students must submit a Reduction of Credit form (Advising Central). When possible, students can use two-credit business courses (for 6 total credits) to reduce overall credit requirements. Courses that are used for business requirements but are not business, like MATH 1400 or CNEN 3810, cannot reduce overall credits.
