We want to take the knowledge developed by Marquette faculty and make it accessible to those who could most benefit. An Innovation Manager has been hired to develop a long term road map for expansion and sustainability. In the short term, she will:

- Develop outreach and education programs for faculty
- Implement an electronic invention disclosure system
- Redesign the technology transfer website
- Develop training materials and events for the campus
- Connect with other initiatives on campus.

M E E

**END OF YEAR 1**
