

The Department of Speech Pathology and Audiology offers a one-year (fall/spring) post-baccalaureate bridge program for students with completed undergraduate degrees in non-related majors that lack the necessary prerequisite course work to apply to graduate programs in speech language pathology. This two-semester program (fall/spring semesters) is not a degree granting or certificate program.

**Guaranteed admission to MU's graduate program.** Students who complete the SLP post-baccalaureate program with a minimum GPA of 3.5 and demonstrate good clinical abilities during the practicum course (SPPA 3964) will be granted admission to MU's master's program in speech-language pathology.

**Practice as you learn.** Through Marquette's Speech and Hearing Clinical students gain valuable clinical experience under the supervision of faculty who are certified speech-language pathologists and audiologists. You may complete up to 50 clock hours working with individuals with speech/language/hearing problems through the clinic. This is a unique opportunity not available in most other post-baccalaureate programs.

Application Deadline: March 15 for an August start in same year

Completed undergraduate degree from a regionally accredited university

Minimum GPA of 3.3 in undergraduate degree

An applicant will have completed no more than two of the courses in this program so that a minimum of 19 credits of course work will be completed within the two-semester program.

GRE score in the upper 50% of graduate applicants to the MS in SLPA program for year of admission

Personal statement and three letters of recommendation
