## WOMEN IN COMPUTER SCIENCE PANEL

graduated from Marquette in 2019 with a master's degree in Computer Science & Mathematics. During her time at Marquette she was the co-chair of the Computer Science honor society and VP of the Mathematics honor society. Upon graduation she worked for the Outstanding Senior award in Computer Science. She now works for the Business Administration department at Saint Francis Engineering.

**A** Graduate student at the University of California, a Pharmacy Business Management student at New York University, and a changing her career path. She is a former software engineer and a former financial analyst in the industry and is currently a marketing manager. She graduated from Marquette University in May 2020 with a Bachelor's degree in Computer Science and a minor in Philosophy.

**B** is a Software Engineer at Decision Sciences. She earned her B.S. in Computer Science and Mathematics in 2018. She then went to work for the AI/Ops team at Kohl's. After a year and a half there, she became an e-commerce engineer at Decision Sciences. More recently, she has been working on the engineering and data team at Decision Sciences and has been contributing to her field. She is currently working on a Master's degree in Data Science & Artificial Intelligence at MSOE.

**A** is a Peer Mentor and Chief Problem Solver at Abanet, LLC. With over 35 years of technical and business experience she has specialized in developing business cases and new services and processes, implementing and managing a Enterprise Resource Planning system at Marquette University's O'Connell College of Engineering. She is currently a Professor Emerita at Allen College Business School and is the co-chair of the Computing and Information Technology and Business Analytics degree.

**C** has worked in the digital industry for over 20 years, managing life cycle development and deployment and earning a B.S. in Computer Science from Marquette. She has taken a number of conferences in leadership and technical innovation. After the Decision Sciences Data Analytics & Systems at the Milwaukee School of Engineering, School and the team are excited for the future of engineering and the future of the industry and the industry will be seen through her own initiatives.
